Disclaimer

This document has been compiled by RENK and published for information purposes only. It is non-binding and does not constitute investment advice. It is based on estimates, expectations, valuations, forecasts or other information (the "estimates") of various securities analysts. The estimates relate, among other things, to future developments such as RENK's sales, earnings and business performance. The estimates of the securities analysts (and thus also the figures of the consensus estimates) are their estimates alone and do not represent estimates by RENK or its management. RENK cautions that the estimates are based on a number of assumptions and are subject to unforeseeable events, uncertainties, known and unknown risks and other factors that could cause the actual results, the financial condition, the development or the performance of RENK to differ materially from those expressed or implied by such forward-looking estimates. These factors include those discussed in RENK's public reports, which are available on the RENK website.

The publication of the consensus does not imply that RENK endorses or agrees with these estimates, nor does it imply that RENK supports or confirms these estimates in any way. RENK does not assume any liability for the selection, timeliness, completeness or accuracy of this consensus and the underlying estimates and does not undertake any obligation to update or adjust this information. Any liability of RENK, e.g. for damages arising from or in connection with the consensus, is therefore excluded. The consensus figures are the arithmetic mean of the estimates that RENK has received from securities analysts for the individual financial positions.

RENK - Recommendations
